

SvnDraw

A Portfolio of Period 2, $c/2$,

Space Ships of Width 7

and

Harold V.
McIntosh

INDEX

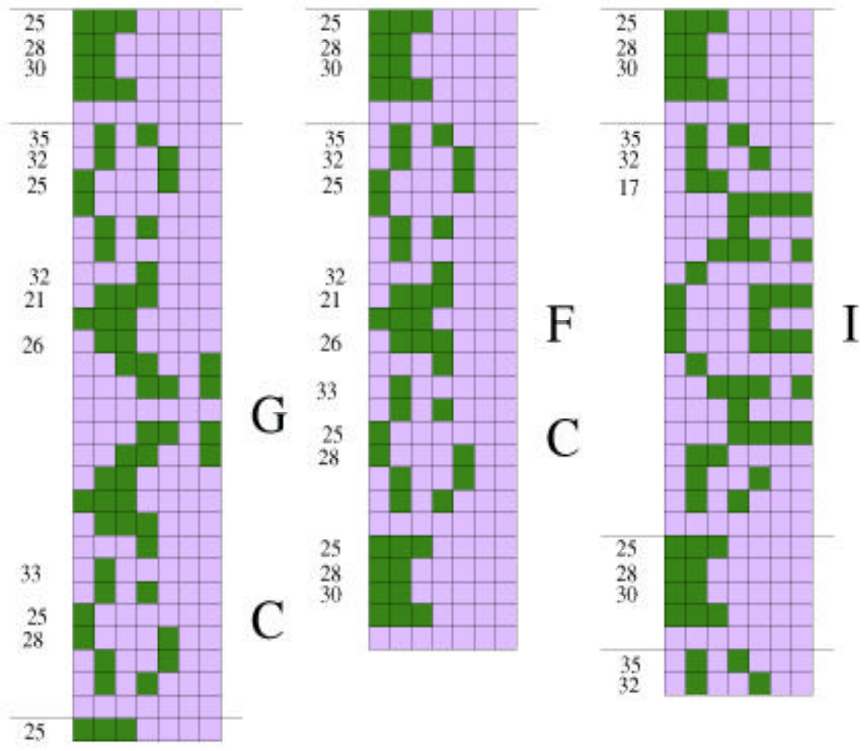

- The G, G', and I region.....	3
- The isolated components.....	4
- Bridges (at widths 5 and 6).....	5
- Some of the larger tiles.....	6
- Some paths through the diagram.....	7
- More paths through the diagram.....	8
- Still more paths through the diagram.....	9
- Figures of cycle 2.....	10
- Figures of cycle 4.....	11
- Figures of cycle 6.....	12
- Figures with basic cycle 15.....	13
- Avatars of width 4.....	14
- The I' region.....	15
- The J region.....	16
- The K' region.....	17
- An early version of the de Bruijn diagram.....	18
- An improved version of the de Bruijn diagram.....	19
- A doubled version of the diagram	20
- The diagram with bilateral symmetry according to avatars.....	21
- Bruijn diagram.....	22

Traces - the number of loops for varying lengths

Cycles - the shortest cycle for each node

Summary - an overview of widths less than 7

Life (-1,0,2) de Bruijn diagram, width 7
